

JOIN THE STRUGGLE FOR SOCIALISM

The Young Communist League, as the youth wing of the Communist Party, is fighting to lead the struggle for public services and peace and against austerity and war.

Britain's Communists call for:

- An end to austerity and investment in jobs, housing, public services and the NHS
- Investment in education and the abolition of tuition fees
- Nationalisation of key industries
- A green economy to end the climate crisis
- Repeal of the anti-trade union laws
- A People's Brexit and a break with the European Union and the Single Market
- Withdrawal from NATO and nuclear disarmament
- An end to racism and discrimination
- Women's liberation and real equality
- Equal rights for the LGBT community

We know that real change won't simply be won in the corridors of Parliament. It will require mass struggle through the institutions of the working class: our trade unions, student movements and tenants organisations.

We know that the youth of the working class have always played a leading role in the fight for peace and socialism.

If you're serious about socialism, join Britain's Communists today.

Join the fight for peace, jobs and Socialism in our lifetime!

The YCL is a democratic organisation of young people committed to the struggle against capitalism & imperialism; and for socialist revolution & communism.

We are part of an international movement involving millions of young people across the globe on every continent.

Our members are not just active in the YCL but in schools & colleges, universities, local communities, work places & trade unions, broad mass youth organisations in

the peace movement, solidarity & cultural organisations.

The YCL does not place its own interests above that of the progressive movement in Britain, or the interests of young people and the working class as a whole.

We believe that a revolutionary change in society can be achieved by mass popular struggle for a socialist programme which can put Britain on the path to a socialist & communist future.

**The YCL doesn't aim to mend capitalism. We aim to end it!
